DETAILED ACTION

1. Applicant's amendment filed 1/19/06 has been entered and made of record.
2. Applicant's arguments, see page 8 four full paragraphs, filed 1/19/06, with respect to claim 1 have been fully considered and are persuasive. The rejection of claim 1 under section 35 U.S.C 102(a) has been withdrawn.
3. Applicant's amendment to claim 1, filed 1/19/06, overcomes the rejection of claim 1 under section 35 U.S.C. 112, 1st paragraph.

Claims 1-18 are allowed.

4. The following is an examiner's statement of reasons for allowance:

Reference is made to the Applicant's arguments, see 3rd and 4th paragraphs of page 8 that of "wherein the middle-high-range luminance component is combined with a middle-range luminance and high-range luminance component", as to the reasons why the most relevant prior art previously applied do not anticipate or render obvious the claimed invention as recited in claim 1.

Regarding claim 2, the cited prior art fails to teach or suggest an image processing apparatus for processing complementary color image data output from an image capturing element including a complementary-color filter, comprising claimed features recited in last seven lines.

Claims 3-18 depend from claim 2 and are also allowed for the same reasons as above.
